PROFILE

I am a professional singer and actress with a 20-year career in musical theater, and have been a voice actor since 2009. As a voice over artist, I am very versatile and can adapt to each genre of project that comes my way. My voice is often described as warm, engaging, relatable, authentic, believable, energetic, and inspirational. I can provide my clients with a myriad of character voices and accents as well!

I am prepared for remote recording sessions with my fully sound-proofed, custom-built home studio, or can travel for in-studio sessions in the DFW area.
